Memory Care

6.19

Alzheimer's and other related dementias create unique life challenges. At The Landing of Canton our personalized approach to care provides the detailed attention our residents need.

Every person has a rich story that is uniquely their own. We work closely with each resident, their family and friends, to learn as much as we can about the resident's history...life, careers, hobbies and other interests. This helps us create a personalized plan of care that focuses on each residents' strengths, talent and preferences... embracing and celebrating everything they do.

Choosing the right Memory Care community is an important decision, and we are here to help you make the right one. Often times, there are conflicting emotions that come into play. We have experience with this transition and feel that assisting you and your loved one in this process is as important as providing excellent specialized care.

**Everyone Deserves a Great Life.
Our Goal Every Day is to Create
Something Special for Our Residents.**
